PROFESSIONAL SUMMARY

Certified Python Developer and AI Specialist with hands-on expertise in Machine Learning, Computer Vision (YOLOv8), Data Analytics, and Exploratory Data Analysis (EDA). Skilled in building predictive models, data-driven automated systems, and deploying real-time AI solutions to solve complex technical problems.

TECHNICAL SKILLS

Languages: Python (OOP), SQL, HTML/CSS

AI & Data Science: Machine Learning, Random Forest, Exploratory Data Analysis (EDA), NumPy, Pandas, Seaborn, Matplotlib

Tools & Frameworks: Computer Vision (YOLOv8), MongoDB Atlas, Git & GitHub

KEY PROJECTS

Socio-Economic Predictive Modeling

Machine Learning

- Developed a Machine Learning regression model utilizing **Random Forest Regressor** to analyze and predict economic trends.
- Conducted comprehensive **Exploratory Data Analysis (EDA)** and generated high-impact visual analytical charts using Matplotlib and Seaborn.

Real-Time Object Detection System

Computer Vision / AI

- Engineered a high-accuracy visual monitoring system utilizing **YOLOv8** for automated real-time object detection and visual tracking.

EDUCATION & CERTIFICATIONS

AI & Data Science Course — Saylani Mass IT Training (SMIT)

Ongoing

Introduction to Modern AI — Cisco Networking Academy

Certified Python Developer — Mehran University of Engineering and Technology (MUET)

Bachelor of Arts — University of Sindh

2022
